Saints of Resistance is the first non-religious study focused on the dynamic life of saints and their devotees in the Spanish Philippines from the sixteenth through the early part of the eighteenth century. It offers an in-depth analysis of the origins and development of the beliefs and rituals surrounding some of the most popular saints in the Philippines during the period of early Spanish rule, namely, Santo Niño de Cebu, Our Lady of Caysasay, Our Lady of the Rosary La Naval, and Our Lady of Antipolo. This study recovers the voices of colonized Philippine subjects as well as those of Spaniards who, through veneration of miraculous saints, projected and relieved their grievances, anxieties, and histories of communal suffering.
